

Annual Parent Survey Comments

Following are comments received from parents of children in our Center from our annual parent survey. The survey provides ongoing feedback for program improvement. To protect the privacy of the children and families we serve, we have omitted names from the comments.

The thing I like most about the Center is:

We're impressed by how the teachers and staff really try to get to know the kids and parents. You work with us as a parents to make ECFC an extension of our home. It's great that together we can be caring and consistent!

"That it feels like an extension of my family. I feel like I know most people at the center and that all of the staff speaks to me and my children. I value the relationships that I have built with all of the teachers in my children's rooms. I truly feel like we are partnering in raising my children."

"The open communication between parent and staff as well as the low turnover in staff which provides a stable environment for my children."

"The staff is open and willing to partner with me as a parent; The warmth and affection my children receive."

"Warm, welcome environment; kids are excited about being there."

"My children love to go to ECFC and are excited to talk about their activities. The well trained staff provide a safe, nurturing environment for my children."

"The Center itself. It is bright, the classrooms are big, full of light and children's artwork is everywhere; The staff they are so welcoming and caring-it seems almost everyone knows each child by name, no matter what room they are in; I am fortunate to have my child in such a wonderful learning program. I am sure many other parents feel the same way."

"I like the routine the teachers enforce and the fact that they try to teach good habits/manners. I also am very pleased with the fact that my son's teachers seems very loving."
