we put people first

KIDS' ADVENTURE CLUB, a childcare program offered by Pathways, Inc.

2026/2027 School Year Program Enrollment

Please be advised that we are accepting applications for all program sites, however, Carder School and Erwin Valley School applicants will be placed on the waitlist.

Once enrolled in the program, children remain enrolled from year to year until they age out or the service is discontinued. The continued enrollment is for the Before and After School program only. Each year prior to open enrollment, currently enrolled families have the option to enroll siblings.

Please be advised that there is a waitlist for the 2026/2027 School Closure program.

Due to limited available slots, families are not charged for school closures including school breaks, early dismissals, or emergency closures. Registration for these programs is separate from the Before and After School program. Once enrolled for the Before and After School program and if slots are available, families will have the option to register for the School Closure programs.

2026 Summer Program Enrollment

Please be advised that we are accepting a limited number of applications for the 2026 Summer program. All applicants will be placed on the waitlist. Families will be contacted by May 29, if a slot becomes available.

Due to limited available slots, newly enrolled families are placed after currently enrolled families submit their schedule requests for summer care.
